

BROKEN AUTHENTICATION – LOGOUT MANAGEMENT

SECURITY LEVEL -low

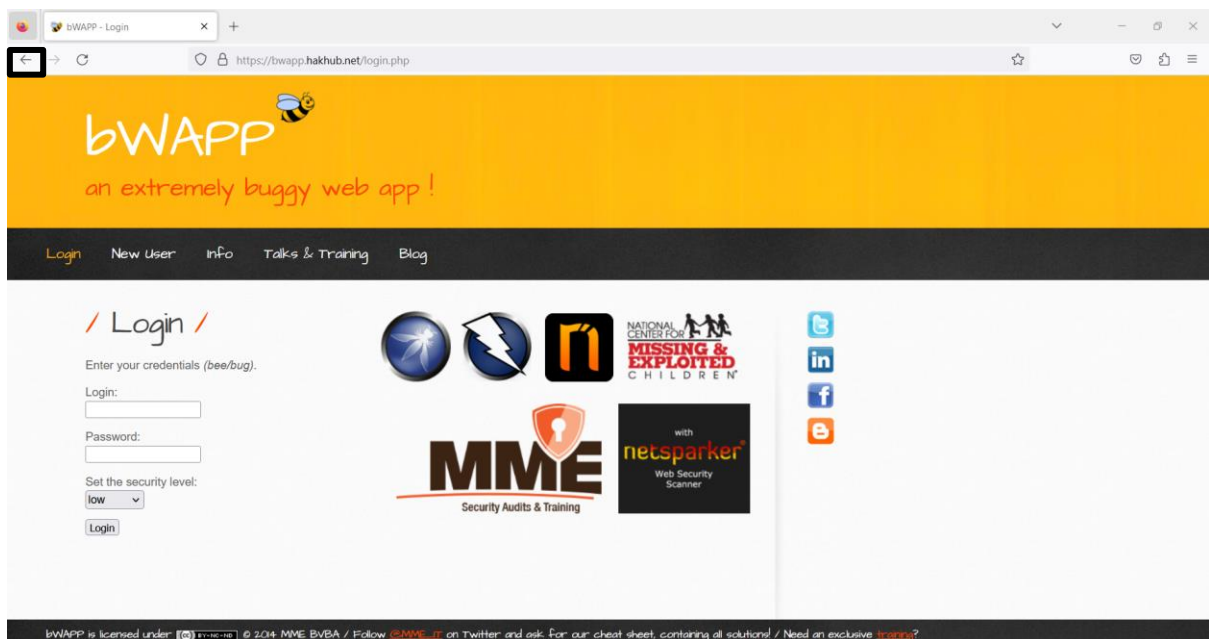

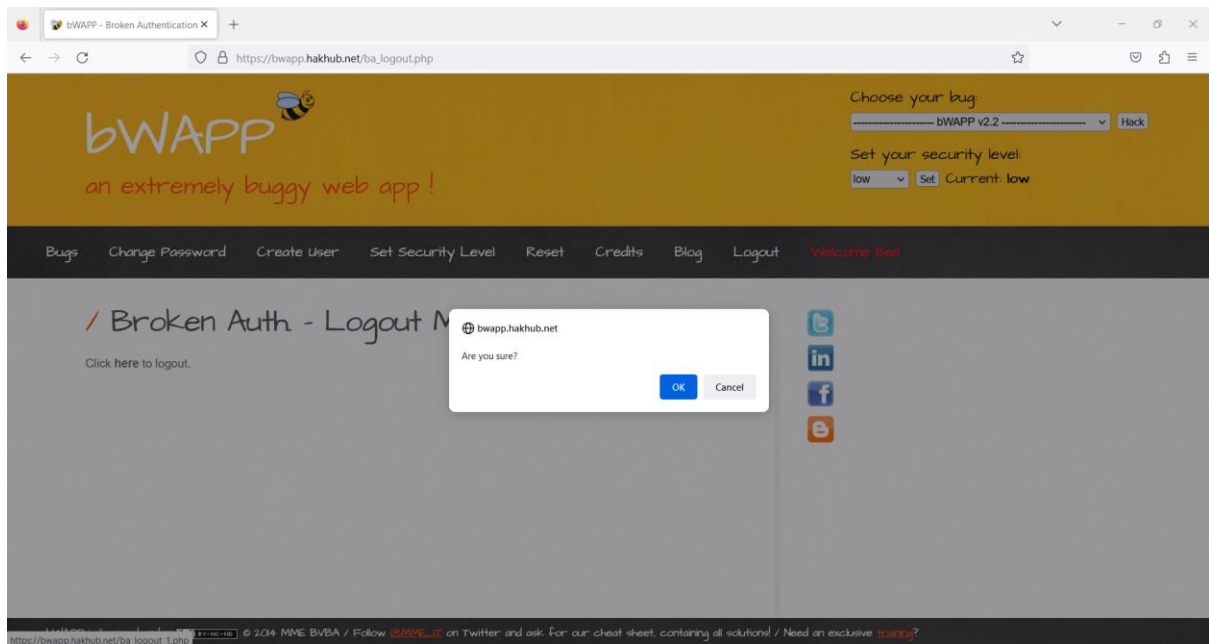

Click in the link given

Application session is ended and user is logged out

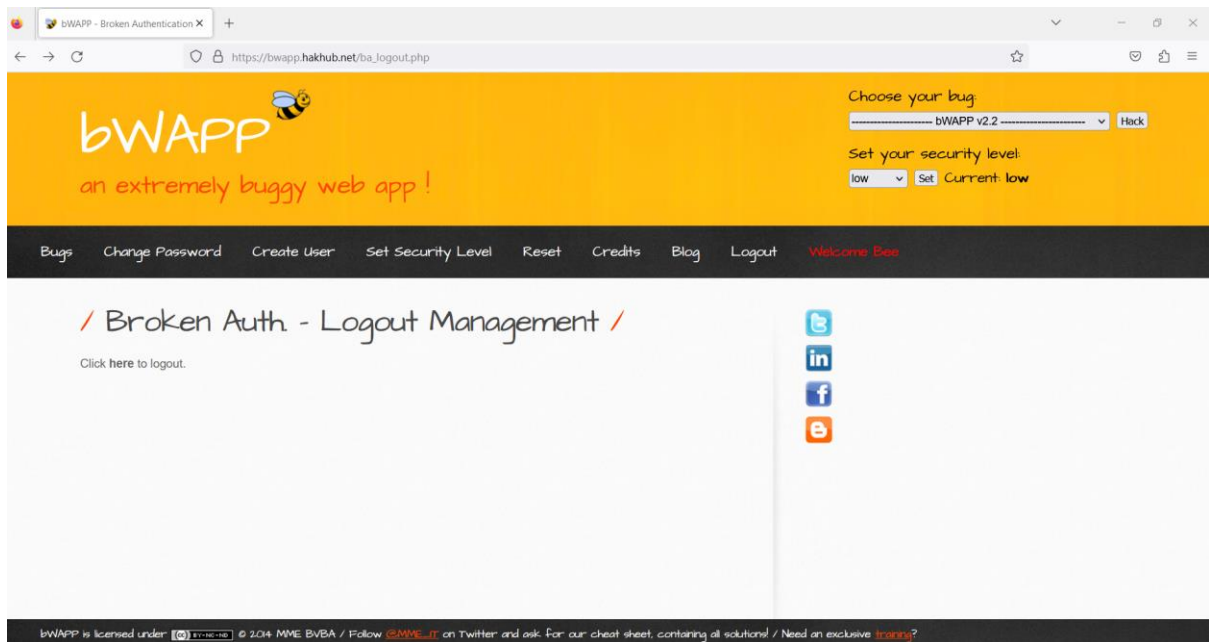

Application session is ended and user is logged out

Now press back button in browser and check if it is possible to access previous logged in page

User can access the page by pressing back button

CHALLENGE SOLVED...!!

ALTERNATE APPROACH

1. Open the challenge page in one tab and in another tab by Duplicate option.
2. Now Logout from one tab → logged out
3. Go to another tab and reload the page
4. Ideally session should be destroyed from other tab but the session will continue on another tab due to IMPROPER MANAGEMENT in the application
